Second-year Bachelor of Computing student at Queen's University specializing in Software Design. Experienced in technical problem solving, data analysis, and large-scale event operations through leadership roles in hackathons and student organizations.

Education

Queen's University

Bachelor of Computing (Honours), Specialization in Software Design

Expected Graduation: 2028

Kingston, ON

Work Experience

Tech Mahindra

Technical Support Intern

June 2024 – August 2024

Dubai, UAE

- Improved system response efficiency by **15%** by analyzing **10,000+ performance records** to identify operational bottlenecks.
- Reduced issue resolution time by collaborating with engineering teams to troubleshoot enterprise software systems.

Queen's University

International Student Ambassador

September 2025 – Present

Kingston, ON

- Improved onboarding experience for **100+ international students** by mentoring new students through orientation and transition programming.
- Strengthened international student engagement by representing Queen's University at recruitment and community-building events.

Extracurricular Experience

QHacks

Kingston, ON

September 2025 – Present

Co-Chair

March 2026 – Present

- Leading strategic planning and cross-functional execution for **QHacks 2027**, a national hackathon expected to host **500+ participants**.

Director of Logistics

September 2025 – March 2026

- Executed logistics operations for a **500+ participant hackathon** by coordinating **15+ vendors**, **50+ volunteers**, and multiple campus venues.
- Ensured smooth 48-hour event execution by organizing venue operations, participant services, and vendor logistics.

Computing Students' Association (COMPSA)

Events Coordinator

September 2025 – Present

Kingston, ON

- Increased student engagement by organizing **5+ computing events** with average attendance of **80+ students**.
- Delivered cross-portfolio programming by collaborating with **4 internal teams** to coordinate student initiatives.

Queen's Data Analytics Association (QDAA)

Director of Research and Insight

September 2025 – Present

Kingston, ON

- Identified emerging technology trends by leading a **4-member research team** analyzing industry datasets.
- Expanded student engagement by publishing **10+ data-driven newsletters** reaching **300+ computing students**.

Merlin Neurotech

Project Manager

September 2024 – April 2025

Kingston, ON

- Delivered a neuroscience-based interactive game by managing a **6-developer team** integrating **EEG and EMG data**.
- Ensured on-time prototype delivery by coordinating development across **8+ sprint milestones**.

E-Waste Alliance (NPO)

Co-Director of Technology

October 2021 – August 2024

Dubai, UAE

- Improved operational efficiency by implementing digital collaboration tools supporting a **20+ member nonprofit team**.
- Streamlined internal communication by redesigning IT infrastructure and workflow systems.
